

**FACT:** In 2017, the total volume of wastewater/stormwater that was treated by Halifax Water was over 72.3 billion litres. That is enough wastewater to fill 28,930 Olympic swimming pools. Not that you would ever want fill a swimming pool with that...

**FACT:** The total length of the wastewater and stormwater system is 2,555 KM. With 39,977 manholes, 166 pumping stations, 500 KM of ditches, 19,700 culverts, 54 holding tanks & retention ponds, and 23,810 catchbasins along the way.

**Middle Musquodoboit Wastewater Treatment Facility**

Constructed: 1989  
 Receiving Water: Musquodoboit River  
 Location: Middle Musquodoboit  
 Present Capacity: 137,000 L/day

**Springfield Lake Wastewater Treatment Facility**

Constructed: 1987  
 Receiving Water: Lisle Lake  
 Location: Springfield Lake, Sackville  
 Present Capacity: 543,000 L/day

**Halifax Wastewater Treatment Facility**

Constructed: 2007  
 Receiving Water: Halifax Harbour  
 Location: Halifax  
 Present Capacity: 340 million L/day

**Uplands Park Wastewater Treatment Facility**

Constructed: 1970's  
 Updated: 2011  
 Receiving Water: Adjacent Marsh  
 Location: Hammonds Plains  
 Present Capacity: 91,000 L/day

**Mill Cove Wastewater Treatment Facility**

Constructed: 1969  
 Updated: 1996  
 Receiving Water: Bedford Basin  
 Location: Bedford  
 Present Capacity: 28.4 million L/day

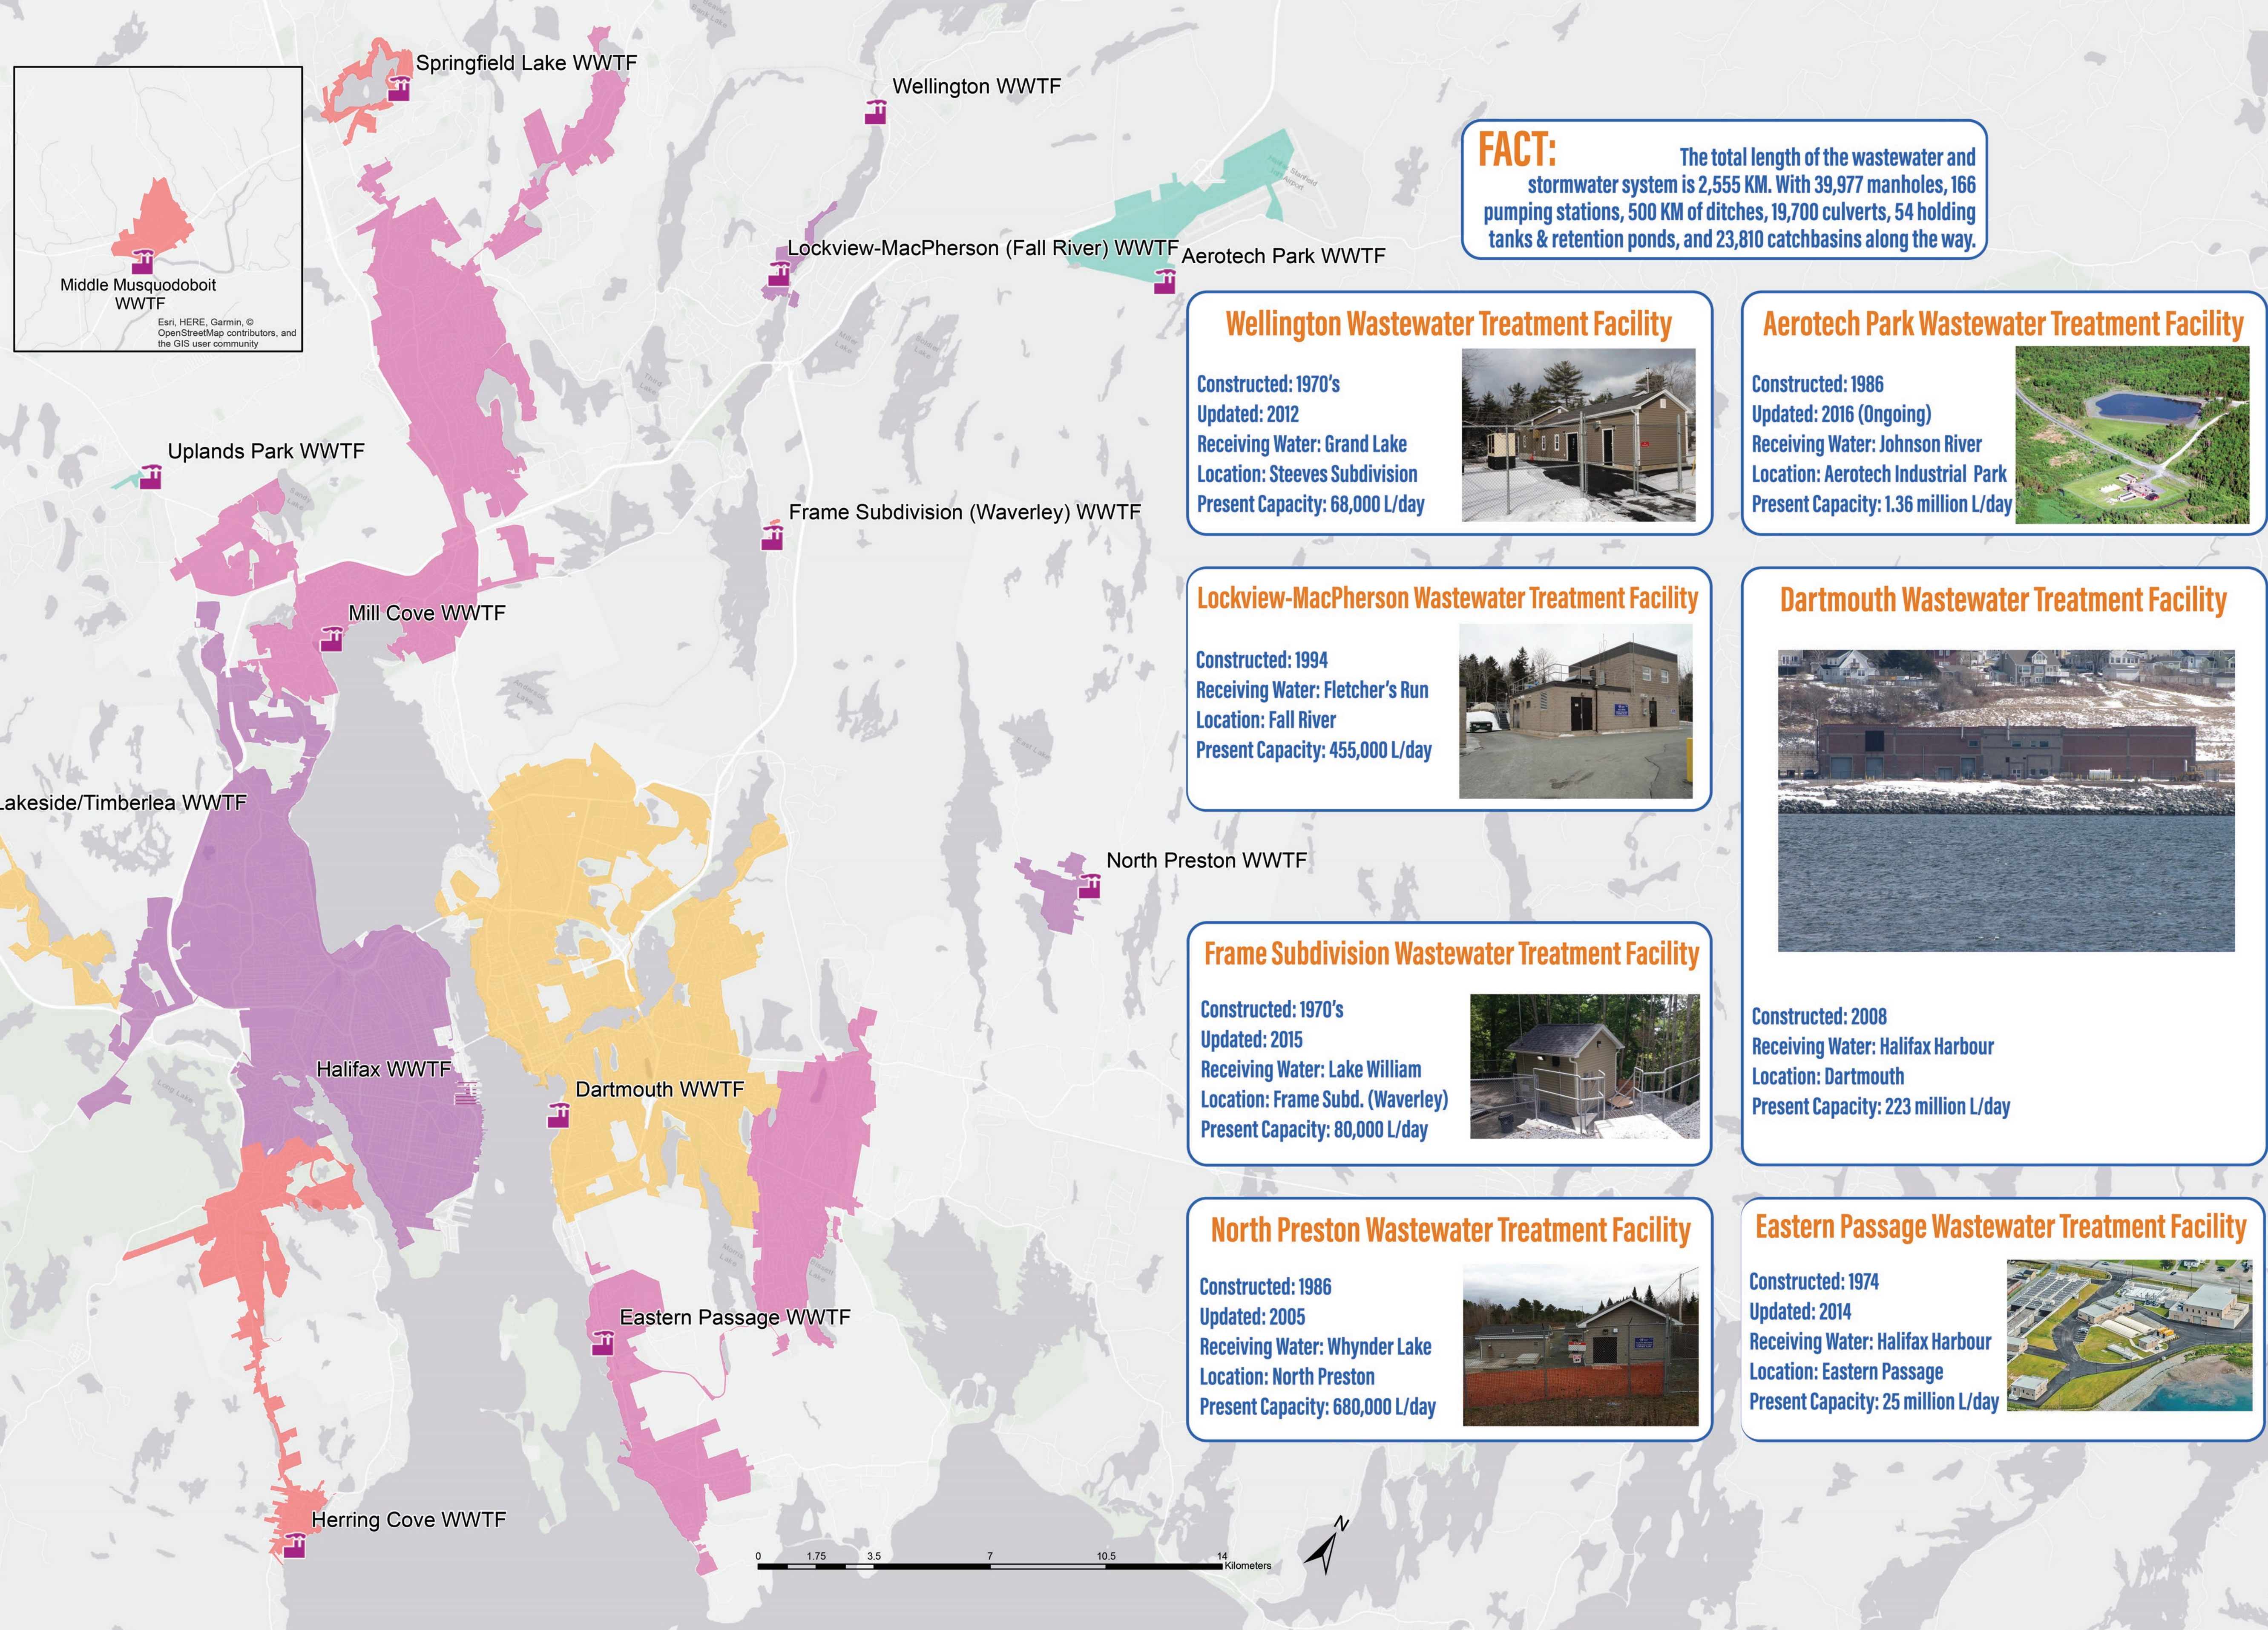

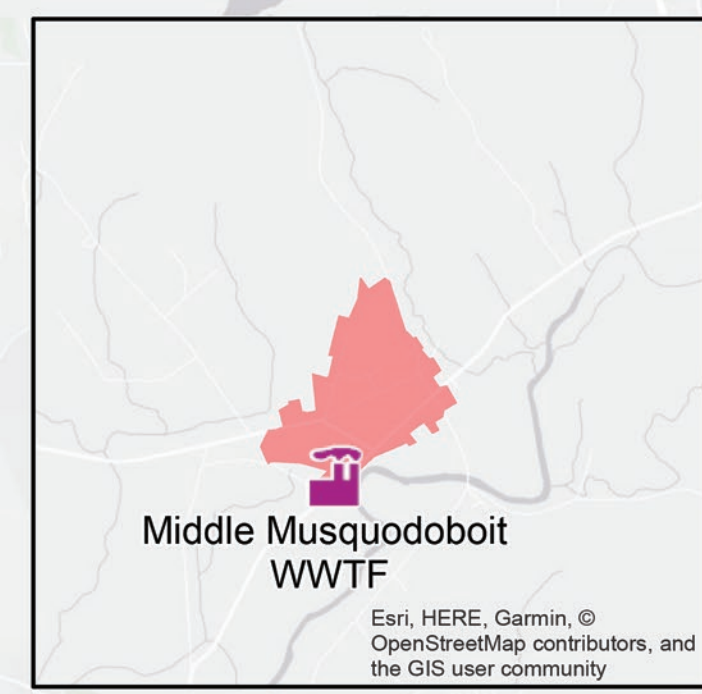

**Herring Cove Wastewater Treatment Facility**

Constructed: 2009  
 Receiving Water: Halifax Harbour  
 Location: Herring Cove  
 Present Capacity: 76 million L/day

**Lakeside/Timberlea Wastewater Treatment Facility**

Constructed: 1984  
 Updated: 1994  
 Receiving Water: Nine Mile River  
 Location: Timberlea  
 Present Capacity: 4.54 million L/day

**Wellington Wastewater Treatment Facility**

Constructed: 1970's  
 Updated: 2012  
 Receiving Water: Grand Lake  
 Location: Steeves Subdivision  
 Present Capacity: 68,000 L/day

**Aerotech Park Wastewater Treatment Facility**

Constructed: 1986  
 Updated: 2016 (Ongoing)  
 Receiving Water: Johnson River  
 Location: Aerotech Industrial Park  
 Present Capacity: 1.36 million L/day

**Lockview-MacPherson Wastewater Treatment Facility**

Constructed: 1994  
 Receiving Water: Fletcher's Run  
 Location: Fall River  
 Present Capacity: 455,000 L/day

**Dartmouth Wastewater Treatment Facility**

Constructed: 2008  
 Receiving Water: Halifax Harbour  
 Location: Dartmouth  
 Present Capacity: 223 million L/day

**Frame Subdivision Wastewater Treatment Facility**

Constructed: 1970's  
 Updated: 2015  
 Receiving Water: Lake William  
 Location: Frame Subd. (Waverley)  
 Present Capacity: 80,000 L/day

**North Preston Wastewater Treatment Facility**

Constructed: 1986  
 Updated: 2005  
 Receiving Water: Whynder Lake  
 Location: North Preston  
 Present Capacity: 680,000 L/day

**Eastern Passage Wastewater Treatment Facility**

Constructed: 1974  
 Updated: 2014  
 Receiving Water: Halifax Harbour  
 Location: Eastern Passage  
 Present Capacity: 25 million L/day
