- Placement of type 1 curb and roadway gravels
- Test water main

Ellenvale Run

- By-Pass pumping
- Removal of brook infill/ excavation
- Rock mitigation measures
- Rock removal
- Prep bedding for concrete liner
- Liner installation and backfill
- Placement of stone/riffles in liner
- Place bridge abutments
- Prep for and start second cast in place section

Safety Reminder

The work going on along Ellenvale Run and on Wanda Lane, Tobin Drive, and Ronald Court is certainly interesting to watch, but we ask that all residents and onlookers view the work being completed from a safe distance. Safety barricades and fences have been installed for the safety of the public and the workers completing this work. Please stay well outside of these barriers and fences at all times. Even when machinery has stopped moving during a break in work or on evenings and weekends, the fenced off areas are to be entered only by authorized personnel wearing the required safety equipment.

Please follow any instructions given by the contractor, Dexter Construction, especially when inside the active work area. These instructions are for your safety and the safety of the workers in the area. We appreciate your understanding of this important safety reminder.
