

June 22, 2020

In late June/early July 2020, Halifax Water, through its contractor, Landmark, will begin construction of a new water storage reservoir to better serve your community. The new water reservoir will be constructed at Halifax Water's existing property on Masthead Court in Bedford.

### Project Update

Landmark plans to begin work the week of June 29, 2020. The early stages of the project will include mobilization to the site, foundation excavation and installation of a concrete foundation for the reservoir. Once the foundation is complete the steel floor of the reservoir will be assembled and welded. The foundation and steel floor are anticipated to take nine weeks to complete. Halifax Water will continue to provide updates to the community as work progresses on-site and construction milestones are achieved.

### Construction & Contractor Work During COVID-19

Effective June 18<sup>th</sup>, Public Health Authorities allow for groups of up to 10 people to be within 2 metres of each other, and from time to time, you will see workers within 2 metres of each other while they work to maintain the critical water, wastewater, and stormwater infrastructure serving your home. Halifax Water is still mindful of the recommendations to maintain a 2 metre distance between employees and contractors, and every effort will be made to achieve this. However, some tasks cannot be completed safely otherwise. As an essential service, in these instances, Halifax Water and its contractors have been exempt from the 2 metre social/physical distancing rules. Halifax Water and its contractors will use additional PPE to protect themselves when undertaking these activities.

We ask that residents please ensure they give construction crews at least 2 metres of distancing as well.
