

June 15, 2021

Halifax Water, through its contractor, Landmark Structures Co., is constructing a new water storage reservoir to better serve your community. The new water reservoir is being constructed at Halifax Water's existing property on Masthead Court in Bedford.

### Upcoming Night Work

On behalf of Halifax Water, Landmark Structures Co. will be working days and nights to complete the construction of this important piece of the water distribution system in the communities of Bedford South, Bedford West, Royale Hemlocks and Birch Cove North.

This nightly work will take place Mondays to Thursdays beginning as early as June 17 until late August and will consist of welding and other quiet, non-disruptive activities.

### Construction & Contractor Work During COVID-19

During this project, from time to time, you will see workers within 2 metres of each other while they work to maintain the critical water, wastewater, and stormwater infrastructure serving your home. Halifax Water is still mindful of the recommendations to maintain a 2 metre distance between employees and contractors, and every effort will be made to achieve this. However, some tasks cannot be completed safely otherwise. As an essential service, in these instances, Halifax Water and its contractors have been exempt from the 2 metre social/physical distancing rules. Halifax Water and its contractors will use additional PPE to protect themselves when undertaking these activities.

**We ask that residents please ensure they give construction crews at least 2 metres of distancing as well.**
