Temporary Water Meter Arrangement Information

The Applicant may be required to adjust the water meter arrangement to accommodate the temporary water meter. Requirements for a 5/8" temporary water meter are the same as the requirements for the permanent water meter, with the exception of the Engineer's Certificate of Compliance are submitted at building's substantial completion of construction. The following must be submitted and approved by Halifax Water:

1. Records of acceptable water service connection hydrostatic tests.
2. Records of acceptable bacteriological examination results.
3. Closed Circuit Television (CCTV) inspection and report.
4. Final inspection of the Water, Wastewater and Stormwater Service Connection(s) by Halifax Water.
5. New Service Connection cards.
6. Approval and inspection of the backflow prevention device(s) by Cross Connection Control Technologist.
7. Service Connection Record Drawings.

 Temporary Backflow Prevention Device Size: _____

Designer: _____ Professional Engineer or Licensed Plumber (Print) _____ (Signature)
 Company: _____ Phone Number: (____) _____
 Email: _____

A temporary water meter is permitted for a **maximum of 6 months**. The Applicant is required to submit all outstanding Building Service Connection Acceptance Requirements at substantial completion of the building construction. Once approved, the premise owner is to schedule the permanent water meter installation. Changing the permanent meter size requires a *Change of Water Meter Size Application*. In new subdivisions, temporary meters will not be issued until the Primary Services have been accepted by the Municipality.
